PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Tempesare W. E. CHILDS & CO'S PATENT ELAS-TIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over other

ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmos-phere, and will neither evaporate, crack nor rot; and, as to "urability, there is no question. It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly

proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good sheathing, cheaper than any Roof of the old style, and we are sure it It will also be found to be the best thing ever invented to nover or mend old leaky tin, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the

tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any obect to which it is applied. Tin Roofs can be painted over and warranted not to leak) at two d-liars and fifty cents per hundred square feel, which is cheaper and much bet-ter than paint. This Hoofing will be found to be the best theng for covering large Roofs where they are exposed to fir —such as Sieam Mills, Saw Mills, Factories, Railroad Care, Bridges, Depots, Station Souses, Steamboat Decks, and, in fact, every kind of Roof where there is an external esposure from fire. As the Roof is perfect, without a joint it, it presents no chance for fire to communicate, and any thisub-tance will burn out without igniting.

The Insurance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, insure Buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tip. The Cement will be furnished to those at a distance ith directions for using.

Orders sent to the undersigned, through the Post-

office, will be promptly attended to

J. T. NATHURST, No. 24, Spruce Street. TESTIMONIALS AND REFERENCES.

OFFICE BUCKEYE STATE INSURANCE COMPANY, CINCINNATI, Dec. 16, 1856 To all whom it may concern: This is to certify that I have examined specimens and Roots of W. E. Childs & Co.'s Elastic Fire and Water-Proof Cement Roofing," and telieve it to be eminently superior to any other kind of Roofing in use. I was an eye witners of a severe trial of one of these Roofs from a large volume of flame from an adjoin ng building, which struck directly upon the roof and corrice for nearly half an hoar. It stood the trial beyond all ex-pectation, and saved the building. T. M. HANKELL. President Buckeye State Insurance Co.

CINCINSATI AGENCY ROYAL INSURANCE COMPANY, I have examined W. E. Childs & Co.'s "Blastic Fire and Water Proof Coment Roofing," and, as far as I can judge, consider it a great invention, and am willing to insure buildings thus protected upon the same terms as I insur e those covered by metal. JNO. S. LAW, Agent Royal Ins. Co., London and Liverpool.

From J. B. Bennett, General Agent of Etna Ins. Co. for the Southern and Western States. CINCINNATI, Jan. 7, 1857.

Having made considerable inquiry as to the merits of the "Patent Elastic Cement Roofing," introduced into this city by Uhilds & Co., I find it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction; that its superiority over the tar composition Roofing is decided and freely admitted and finally, I expect to adopt it for my next roof, which will be next summer—having intended to use tin, but will try the virtues of the "Patent Elastic Roofing" as a substitute. Yours, truly, J. B. BENNETT.

OFFICE OF THE CIN., HAM AND DATTOR RAILROAD, Childs & Co.'s Patent Cement Roofing is now used here on our best class of Buildings. We are covering our Freight Ours with It, and our Master Machanic reports very favor-able to it.
